## Profile

Having volunteered at my Church, to prepare meals and prepare services I believe I am capable of safe food preparation and also committed to working in a team during long shifts. During 2016 to 2020 I had previously volunteered as a Police Cadet, in which I would frequently interact with vulnerable communities such as the elderly and disable and from that I have strengthened my communication skills. I would wish to gain employment so I can help within the daily operations of your store.
